Encouragement to join the association for universities outside Japan

Growing numbers of H.E. Institutions that utilize COIL practice to build and foster inter-university relationships
World’s First COIL-Customized Online Platform

Launching June 2019
Colleagues

Connected Lessons

**Cultural Understanding Icebreaker**
In order to familiarize yourself with your fellow student overseas and learn about their culture, you will be completing a series of Cultural understand assignments. These assignments will include a word association, 3 Image Association, Sentence Completion, and Image Association.

**French Cultural Understanding**
We will be learning about the French Culture by speaking with native French Speakers

**Climbing to the top**
We are going to have the students use social media to discuss topics with one another

**Video Lessons**
During the semester you and your classroom partners overseas will be sending videos to each other. In these videos, you will be showing your partners what a day in the life looks like for you. For example you will take a video on what food you eat, where you study, who your best friend is, what your favorite thing to do all day is etc...

**Diplomacy**
Discuss how your country might handle international Diplomacy differently then your partner countries
