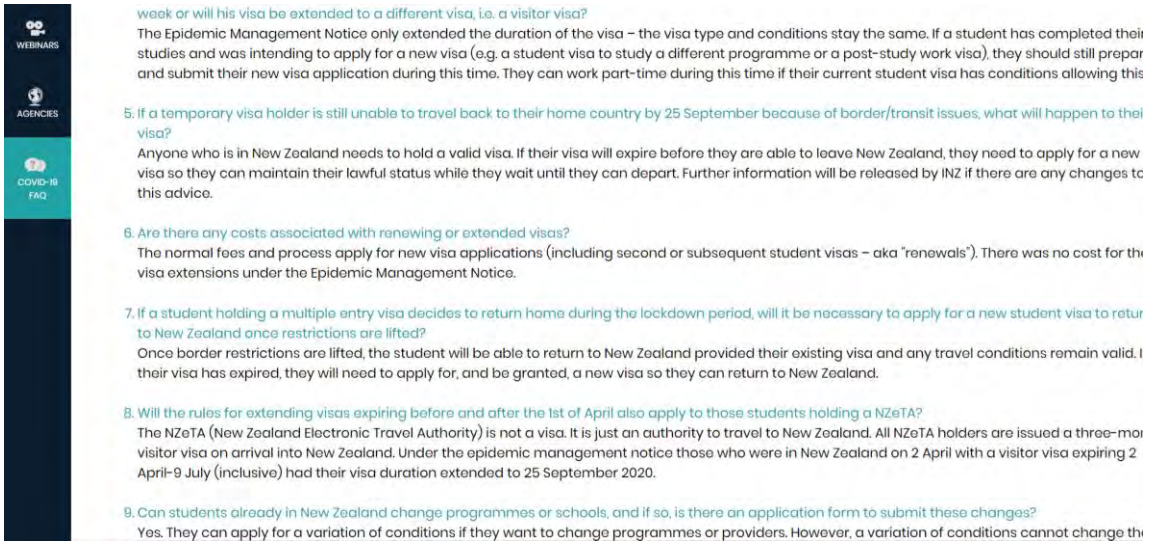
COVID-19に関するよくある質問



week or will his visa be extended to a different visa, i.e. a visitor visa?
The Epidemic Management Notice only extended the duration of the visa – the visa type and conditions stay the same. If a student has completed their studies and was intending to apply for a new visa (e.g. a student visa to study a different programme or a post-study work visa), they should still prepar and submit their new visa application during this time. They can work part-time during this time if their current student visa has conditions allowing this

5. If a temporary visa holder is still unable to travel back to their home country by 25 September because of border/transit issues, what will happen to their visa?
Anyone who is in New Zealand needs to hold a valid visa. If their visa will expire before they are able to leave New Zealand, they need to apply for a new visa so they can maintain their lawful status while they wait until they can depart. Further information will be released by INZ if there are any changes to this advice.

6. Are there any costs associated with renewing or extended visas?
The normal fees and process apply for new visa applications (including second or subsequent student visas – aka "renewals"). There was no cost for the visa extensions under the Epidemic Management Notice.

7. If a student holding a multiple entry visa decides to return home during the lockdown period, will it be necessary to apply for a new student visa to retur to New Zealand once restrictions are lifted?
Once border restrictions are lifted, the student will be able to return to New Zealand provided their existing visa and any travel conditions remain valid. I their visa has expired, they will need to apply for, and be granted, a new visa so they can return to New Zealand.

8. Will the rules for extending visas expiring before and after the 1st of April also apply to those students holding a NZeTA?
The NZeTA (New Zealand Electronic Travel Authority) is not a visa. It is just an authority to travel to New Zealand. All NZeTA holders are issued a three-mo visitor visa on arrival into New Zealand. Under the epidemic management notice those who were in New Zealand on 2 April with a visitor visa expiring 2 April-9 July (inclusive) had their visa duration extended to 25 September 2020.

9. Can students already in New Zealand change programmes or schools, and if so, is there an application form to submit these changes?
Yes. They can apply for a variation of conditions if they want to change programmes or providers. However, a variation of conditions cannot change th
